Subject: Microsof Settlement

Dear Sir or Madam,

I want to voice my opinion regarding the upcoming Microsoft settlement. I would like this settlement to be made as soon as possible so that Microsoft and our nation can get on with business, that business that will ultimately help our nation out of its current recession and put people back to work. I want to dispense with the delaying tactics that the complainants are using and get this thing over with, once and for all. This premise of this lawsuit is ridiculous. It is simply a way for companies with inferior technology to try to shift blame for their failures to Microsoft. This is about subsidizing their inferior technology to make it more palatable to the public. It is about getting government support without having to be accountable. Let's stop this insanity now and get this thing over with!
